Put Your Feet in the Water...*

# AQUA DETOX™

*Enjoy the Aqua Detox™ Experience!!!*

## AQUA DETOX™

The benefits of the Aqua Detox™ treatment are numerous and many people have enjoyed relief from the symptoms of illness. The Aqua Detox™ treatment is never the same for any two people and this means that quite different results may be experienced by people suffering from what appear to be comparable symptoms. This is because the symptoms may be caused by different underlying conditions. There are four specific categories of people who should not use the Aqua Detox™ system - those with pacemakers, have had an organ transplant, those who suffer from epilepsy and pregnant women. We would also advise that people recovering from severe illness or surgery should allow their body to recover fully before using the system.

We would also stress that we do not diagnose, treat or cure any illnesses. Anyone in any doubt about using the system should check with his or her Doctor.

## What is energy medicine?

Energy Medicine is a modern field with age old roots. It borrows from traditional healing methods, integrates them into modern settings and perspectives and is practiced in hundreds of different ways. Energy medicine is both a complement to other approaches to medical care and a complete system for self-care and self-help. It can address physical illness and emotional or mental disorders, and can also promote wellness and peak performance.

Energies, both electromagnetic energies and more subtle energies, form the dynamic infrastructure of the physical body. The health of those energies in terms of flow, balance and harmony is reflected in the health of the body.

Most people who have tried the Aqua Detox™ feel more energized, or more relaxed.

**20% MORE RELAXED**

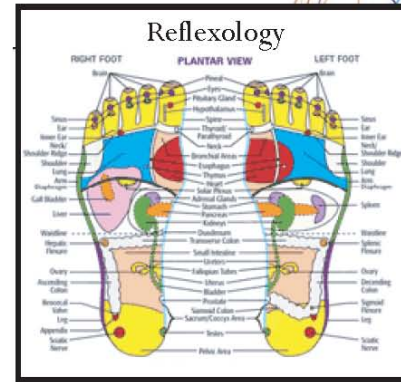

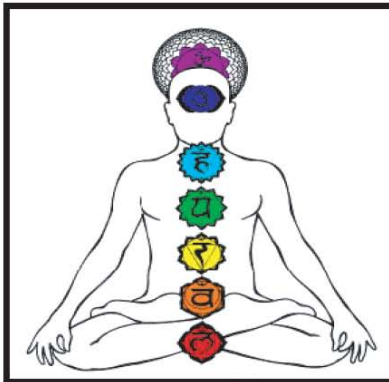

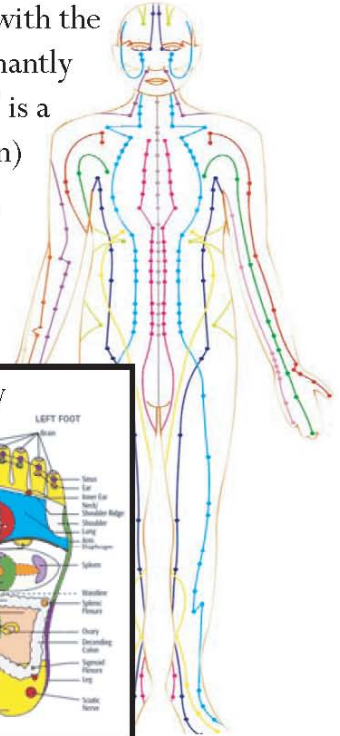

**80% MORE ENERGIZED**

# Energy in the body

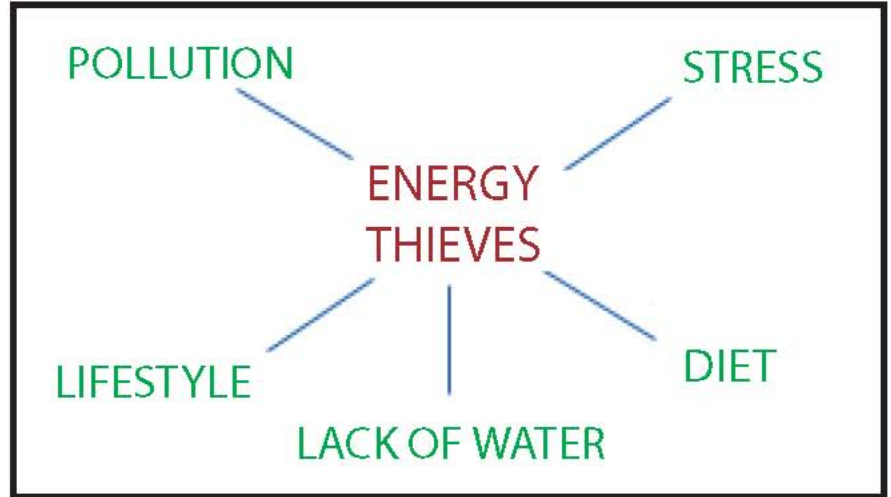

We all possess an invisible energy system that flows along energy channels called pathways or meridians. These meridians have multiple pressure points that have been a means of working with the energy to keep it flowing. Acupressure, acupuncture, and reflexology are predominantly the most popular energy medicines used in the Western world. The word “energy” is a translation of the Eastern words Chi (from Chinese), Ki (Japanese) or Prana (Indian) which means life force energy. When our energy is blocked, scrambled or leaking, we feel depleted and heavy. When the body becomes energy-depleted, it is more difficult to manage emotions, think positive thoughts and stay healthy.

## Energy Thieves

Given today's life-style the body will never be toxin-free. Car exhausts, cigarette smoke, electrical appliances, dust and heating fumes. The body takes in so many of these toxins that the liver, which breaks down the toxins in the body becomes overloaded.

When the body performs efficiently it will revert to a healthy state and rid itself of disease.

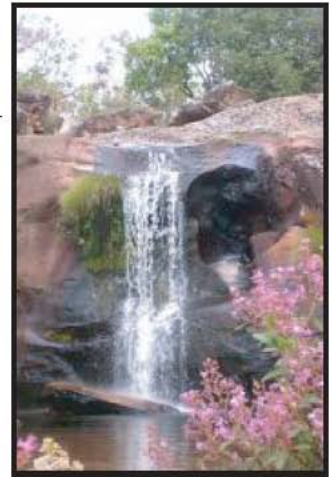

## Negative Ions

Have you ever noticed that people report feeling better, healthier or even refreshed after walking by the ocean, through a forest after a rainfall, or after a thunderstorm? **EVER WONDER WHY?**

The body accepts negative ions to rebalance the positive ions created through pollution, dietary toxins and stress. The negative ions neutralize the positive ions, allowing cells to detoxify and accept nutrition more freely.

Scientific research concluded that negatively charged ions have positive effects on living organisms. Plants grow faster and healthier, and people can respond with increased alertness and relaxation. Negative ions in the bloodstream accelerate the delivery of oxygen to our cells and tissues.

The charges in the water in the **AQUA DETOX™** system are both positive and negative. Our bodies attract the negatively charged ions as the body is relatively deficient in negative charges. The negative ions in the **AQUA DETOX™** system are achieved by the process of electrolysis. Ionic charges move through the body's own water supplies - blood plasma is over 90% water. Our body is over 70% water.

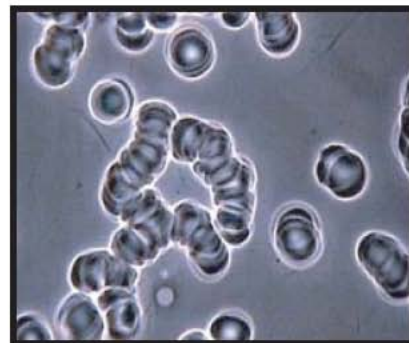

## What is a toxin? Toxin = Cell Poison

We all like to think of ourselves as individuals, but in reality we are collections of billions of microscopic cells.

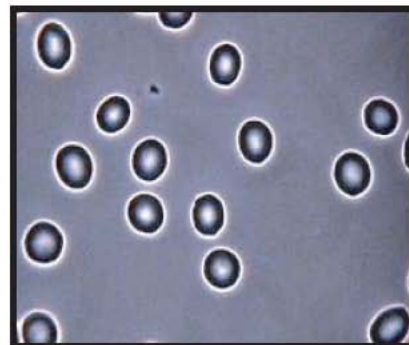

Red blood cells are slightly negatively charged, as are the surfaces of the blood vessels through which they flow; and for a very good reason. Because identical charges repel each other, blood cells do not get attracted to the artery walls, or to each other, and so can flow smoothly along these narrow channels.

When positive ions enter the blood stream they lessen the negative charge on the blood cells. The adhesion of blood cells to the vessel walls is increased and circulation efficiency decreases.

The Aqua Detox™ system donates electrons and neutralizes free radicals by donating the missing charge.

HEALTHY BLOOD

## Frequently asked Questions

Q. Have you proof of what it cures?

A. The machine does not cure anything. It is simply a machine which enables your body to re-balance it's energy which stimulates self-detoxification.

Q. How often can I have an Aqua Detox™ session?

A. After a 30 minute session the body will continue to detoxify for up to the next 48 hours. Therefore it is not necessary, nor do we recommend using the system more than every third day. For those suffering from illnesses or after having surgery, the frequency should be reduced, because the body may be in recovery. During which they may feel tired and lethargic, but this is usually followed by an increase in energy.

Q. How does it make the body detox?

A. The machine does not make the body detox, it stimulates the body to enable self detoxification. While using the Aqua Detox™, the whole of the body detoxifies through the skin, lymph, kidneys, liver, bowels and lungs by rebalancing the body's negative and positive charge balance. The Aqua Detox™ can help the body to perform its detoxification processes more efficiently.

## Frequently asked Questions

Q. Why do we have to add a saline solution to the water?

A. The saline solution (a mixture of household or sea salt and water) aids conductivity, which allows the array to work. Salt is also known for its antiseptic properties, and can also be used as a detoxificant.

Q. What makes the Aqua Detox™ system different from similar products?

A. The programming in the control box of the Aqua Detox™ system contains the most advanced technology available today. It is this technology that has made Aqua Detox™ the world leader in body detoxification systems.

Q. How long do the arrays last?

A. The array slowly erodes due to the toxins in the water attacking the stainless steel of the array. When cared for properly, normally they last approximately 25-35 treatments, depending on the chemical content and the pH of the water along with the toxicity of the client.

Q. How do I know when I need to replace the array?

A. When the array stops producing bubbles.

## The Results

My impressions of AQUA DETOX™ results after treatment, WOW!!!!!! In less than 24 hours, first noticed the blisters on my feet from red ant bites, had all but disappeared. This simple 30 minute treatment has done something wonderful, where other options had failed... My Energy level has also picked up and now I'm excited to try a treatment again, I am amazed at just one treatment results and anxiously await results from a second.

~ Thank-You, William D., Aiken, SC

Even though I had no obvious health issues I wanted to try AQUA DETOX™ for a preventive. Right away I experienced an energy boost that continued through the next few days. Since then I have purchased a system to share with others.

~ Jan T., Mooresville, NC

The after effects are amazing. I feel more energetic, more active.

~ NewU Magazine, January 2003

Just one AQUA DETOX™ treatment can give you a general sense of well-being.

~ GQ Magazine, December 2002.

## The Results

I have found that there is nothing better than putting your feet ordinarily in a bowl of hot water at the end of the day to make you feel refreshed. Particularly, when I am tired and aching from standing and teaching exercise classes all day. Therefore, to have a machine that also helps to eliminate all the rubbish out of my system, increases my energy levels and restores my body's balance is nothing short of wonderful.

~ With Very Best Wishes, Carole Caplin

We have been using our AQUA DETOX™ on ourselves and friends since the start of January and we are very satisfied. My skin has become so soft and smooth all over, and that is a new experience for me. Getting all this toxic waste out of our bodies is just wonderful.

~ Erik Rosenholm

One treatment can give a feeling of well-being (and who wouldn't enjoy seeing fat bubble away).

~ Sunday Times

Feeling refreshed and revitalized, I woke up the next morning feeling the best I have for a long time.

~ New Forest Post, February 2003

## The Results

I couldn't believe there was a detox method as easy and simple as AQUA DETOX™! You soak your feet for 30 minutes and the system helps the body release toxins and restore balance. I was tired for the first 24 hours after my treatment, but then I felt more refreshed and full of energy. I'm ready for my next treatment!

~ Leah M., Mooresville, NC

My first Aqua Detox treatment left me feeling wiped out, but for the first time in months I have been sleeping better. As I continued with additional treatments, I started to feel more focused and full of energy. The benefits continue to add up as time goes on.

Thank You... AQUA DETOX™!!

~ Tracy M., Lake Norman, NC

Aqua Detox continues to receive comments and phone calls from those who receive benefits. We would enjoy hearing from you, as well. Please feel free to contact us at:

## *The Leader in Body Detoxification*

**Modern day living, stress and the environment,  
all introduce toxins into our bodies.**

Although we are exposed to these substances in only very small doses,  
over time our bodies can accumulate a wide range of toxins,  
which they are unable to excrete.

Now there is an effective and convenient way to remove harmful  
toxins in the body, without special diets, funny drinks or exercise.
