

Say goodbye to raccoon eyes and hello to this simple treatment with long-lasting results. For truly dramatic eyes, have your lashes and brows professionally tinted with a color that suits you perfectly.

First your eyelashes and brows are gently cleansed. Next, you select your tint, with color options ranging all the way from blue-black to auburn.

The tint is applied, allowed to set for a few minutes, and then removed. The results? Knock 'em dead peepers in no time at all.
