

Eye Kandy - Sprinkles Glitter

Sprinkles Glitter contains no metallics or glass. It is made of polyester plastic and color and is safe for sensitive skin and contact lenses.

Sprinkles Liquid Sugar is water based and also safe for sensitive skin and contact lenses.

This product is safe for every age!

Glitter can be worn bolder for a more intense look or subtle for a daytime or office look.

Our secret is our stay put base. Once glitter is applied it will stay on all day! No flaking!

Sprinkles Glitter is an excellent product for dance troupes, cheerleaders, stage performers, etc. It can be applied as a liner or all over the eye for a more intense and noticeable look. We offer a variety of brighter, bolder colors for performers. See our website for additional colors and larger cuts of glitter.

For extra sparkle, our glitter can be worn as an all over body shimmer. After applying lotion or moisturizer to your skin, lightly dip a powder brush into a pod of glitter and dust over your body.

Glitter can be worn over lipstick or gloss. Use a thicker lip brush, dip into base, then into glitter and brush over lips. Allow to dry before touching lips together.

Get creative! Glitter is fun. Use more than one color. Use over eye-liners, and shadows. Create awesome body art!

Experiment and have fun!
