What is Noni? Why is it in HIRO™?

Noni has been referred to as a "SUPER-FRUIT". It is a tropical fruit that has a 2,000 year proven history. The richest fruit in the world comes from Tahiti.

At TNI we utilize the **FRUIT**, **LEAF** and **SEED** of the noni while preserving the plants for future generations. All these components have been proven to be beneficial to cellular health and help to support the immune, digestive, circulatory, metabolic systems and skin and hair.

Noni is an Adaptogen which is a substance that has a global balancing effect on all body systems. Noni contains an alkaloid called **Xeronine** which is magic to our cells. It is one of the world's most powerful **antioxidants** and helps to protect our cells from **Free Radical Damage**. It was a perfect choice for **HIRO™**.

Tahitian Noni® is the "One Good Thing™" you can do for yourself, your health and your family!
